## **Publication of “Toho Gas Group 2050 Carbon Neutrality Initiative”**

Toho Gas Co., Ltd. (President: Nobuyuki Masuda) published “Toho Gas Group 2050 Carbon Neutrality Initiative” to show to stakeholders the Group's determination and the orientation of Toho Gas Group's response amid the current worldwide growing sense of urgency regarding global warming.

Toho Gas Group aims to create a clean energy system that contributes to carbon neutrality, with the pivot being the three types of energy of gas (city gas and LPG), hydrogen, and electricity. We will continue to contribute to realizing a sustainable society and to the further development of the Chubu region.
