Toho Gas Co., Ltd.

Notice of the supply of carbon neutral city gas

Toho Gas Co., Ltd. (“Toho Gas”, President: Nobuyuki Masuda) announces that the company has reached agreements concerning the supply of carbon neutral city gas with KYB Corporation, ADVANCED TECHNOLOGY KOWA., CKD Corporation and Meijyo University, respectively.

Carbon neutral city gas utilizes carbon neutral LNG, in which CO₂ generated in the process from mining to combustion of natural gas is offset by CO₂ credit. Switching to carbon neutral city gas will contribute to reduce carbon emission by approximately 70,000 tons for the four corporations and totaling by approximately 600,000 tons for 30 corporations earlier agreed upon.

Through the construction of clean energy system, Toho Gas will continue to contribute to realizing a sustainable society together with its customers.
