History of Toho Gas Group

Toho Gas Group has grown and developed alongside the community, changing its feedstocks from coal and petroleum to natural gas in response to changes in society and the business environment, and expanding its range of applications.

By providing diverse types of clean energy including city gas, liquefied petroleum gas (LPG), electricity, and hydrogen, and by creating value as a partner in everyday life and business, we are evolving as a corporate group that is growing alongside the community, creating enriched lives, business, and community.

Yokkaichi Works

A history of challenges and creation

business

Our origins

Continuing the Okamoto Spirit

The first President of Toho Gas, Sakura Okamoto, believed that its customers, shareholders, and employees formed a tripartite unity, and that the mutual coexistence and prosperity of these stakeholders were essential. We have been committed to putting this into practice while focusing on enhancing the welfare and togetherness with the local community. The spirit has been inherited as part of our company's DNA and continues to be a core value today

Responded to changes in the environment

Switched raw materials for city gas (coal -> petroleum -> natural gas)

Meiko I PG Terminal

Expanded city gas usage

First arrival of LNG

Terminal

vessels at Chita LNG

Launched LPG business and electric power business

Contributed to the realization of a comfortable life and manufacturing development

- Developed energy-saving and highly efficient equipment and appliances for a more comfortable life
- Provided optimal proposals according to the actual usage status Expanded supply areas/base networks

Realized safe, secure, and stable supply; responded to disasters

- Earthquake, resistance for city gas production/supply facilities; facility enhancement/software strategies for stable supply
- Responded to disasters in the region (e.g., Isewan Typhoon and Tokai Cloudburst Disaster); provided restoration support for disaster-stricken areas across the nation

Our strengths

Changed name to Toho Liquefied Gas Co., Ltd.

Completed circular transportation trunk line

Provision of diverse energy services, systems to ensure stable supply, and technological development and solution support

2018

Business foundation in the region, contact with customers, and trust from the region and customers

Organizational culture and human resources whose mission is to support the community

Established Toho Gas Communications

Held the grand opening of the Minato AQULS smart town and opened the Pro Kitchen OISIS professional kitchen showroom

Our vision

Reliable energy

operator in the

region

partner beyond the

Corporate group that leads the realization of a sustainable society
